

ELECTRONIC DESKTOP AND EQUIPMENT LIST

DESKTOP DESIGN SUPPORT

PC AND MAC Workstations

We can accept the following files:

- **Adobe InDesign:** Please be sure to include font files and linked images. Save as .EPS or .TIF so that we can open them easily. Latest technology for professional layout and design.
- **Adobe Illustrator:** Save as Illustrator or Illustrator EPS. Save text as outlines or be sure to include the font file. Be sure to call out all colors in PMS numbers to avoid confusion.
- **Adobe Photoshop:** .TIF files with a minimum resolution of 300 dpi. Lower resolution will print pixelated and/or incur art charges to clean up. Web images are most commonly 72 dpi and do not meet the requirements for high-quality commercial printing. A good standard for photographic images is 300 dpi. Photoshop files that are over 1 MB are requested on disk only to avoid e-mail errors.
- **Adobe Pagemaker:** Please be sure to include font files and linked images. Save as .EPS or .TIF so that we can open them easily.
- **Quark Xpress:** Please be sure to include font files and linked images. Save as .EPS.
- **Corel Draw:** Must be exported as .AI file with all text converted to curves.
- **Other Files:** Please call if you have a file not mentioned above. Files that may require art charges are .jpg, .gif, .doc, Microsoft Word, Powerpoint, Microsoft Publisher, etc. This is usually because these files have a low resolution resulting in poor image quality. Low resolution files do not meet the requirements for high-quality commercial printing.
- **Disk Support:** We can accept your files on a floppy disk, Iomega Zip Disk or CD ROM and DVD. Other media may be sent, but requires extra time and possibly extra charges to open. Examples are Suquest and JAZ. Please call if there are any questions. If your disk must be returned, please include return label.
- **FTP:** For large files, our FTP is ftp://rangeronline.com User Name: rangerftp. Please call 407-869-0024 for Password access. In addition, you may upload your files on our website at www.rangeronline.com.
- **E-mail:** We recommend using compression software whenever possible for e-mail files. This helps files arrive without errors. **(Please be sure to include all fonts and linked images in document)**
E-mail files to production@rangeronline.com
